

AHA 2022 HEARTCODE COURSES

HEARTCODE ACLS PART 1 COURSE OVERVIEW

The **HeartCode ACLS Course with online codes**—provides those with a **current** ACLS provider card an opportunity to utilize a self-paced instructional online program to complete the lecture and written exam portions of the ACLS course on their own time. Topics covered in the online component include: 10 interactive scenarios which cover one BLS case, seven cases representing cardiovascular, respiratory and stroke emergencies, two MegaCode scenarios; Knowledge and application of ECG recognition & pharmacology; Team dynamics; Effective Code Team Leadership skills; treating patients with current ACLS algorithms, scenario debriefing and coaching along with a 50-question multiple choice examination.

The online module takes 3-6 hours to complete. Once a student completes the online module, they need to print off the course completion certificate and bring it to class in order to complete the skills sign off portion of the course. Skills sign off takes approximately 1 hour.

HeartCode ACLS Course Testing only is available for those who have already purchased the online portion separately and need to complete the skills verification only.

Cost:

HeartCode ACLS Course (with online code) \$ 350.00
HeartCode ACLS Course (testing only) \$ 300.00

Prerequisites: *Refresher students must have a current ACLS provider card.*

Registration: Students may register/schedule a course by calling the office to 775-384-2248. For more information, please contact us via email at register@sremsp.com.

Confirmation materials will be sent, including directions to course locations. Students must register for classes 72 hours prior to the course date. For those taking the HeartCode ACLS course with codes—codes will be emailed to you as part of your confirmation packet.

Rescheduling/Cancellation Policy: Students may reschedule a course **once** for a \$50.00 fee with 7 days advance notice, with less than 7 days notice the rescheduling fee is **one half the course fee**. Failure to appear will result in a forfeiture of course fees. **THERE ARE NO REFUNDS.** Snowy River EMS Productions reserves the right to cancel a course up to 5 business days prior to the course date and fees will be refunded or students will be scheduled into another course.

AHA Card Issuance Policy: Effective January 1, 2018 all American Heart Association Course completion cards will be issued as eCards. Students will receive an email from the AHA on how to access and download their card(s) within 7-days of course completion

HEARTCODE PALS PART 1 COURSE OVERVIEW

The **HeartCode PALS Course with online codes**—provides those with a **current** PALS provider card an opportunity to utilize a self-paced instructional online program to complete the lecture and written exam portions of the PALS course on their own time. Topics covered in the online component include: 12 interactive scenarios which cover 2 airway obstruction cases, 4 shock cases—hypovolemic, distributive, obstructive, and cardiogenic, disordered control of breathing. Lung tissue disease Bradycardia, narrow complex tachycardia, PEA/asystole, VT/VT; Knowledge and application of ECG recognition & pharmacology; Team dynamics; Effective Code Team Leadership skills; treating patients with current PALS algorithms, scenario debriefing and coaching along with a multiple choice examination.

The online module takes 6-8 hours to complete. Once a student completes the online module, they need to print off the course completion certificate and bring it to class in order to complete the skills sign off portion of the course. Skills sign off takes approximately 1 hour.
